Instructions for fixing wall mount:

Attention: Drilling the wall for the wall mount should be executed by a craftsperson only. Exercise care to prevent any scar or damage to the wall.
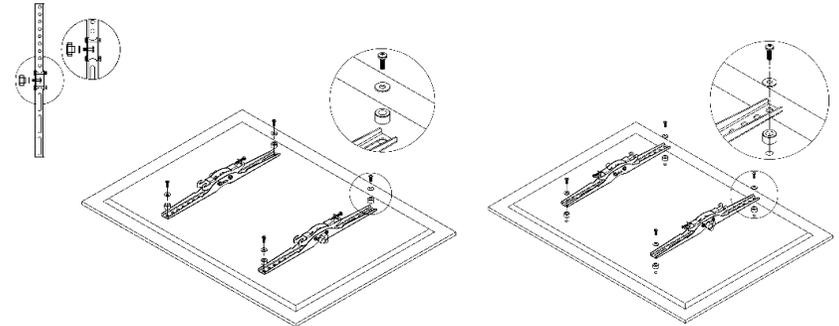

Cauton: Wear safety glasses while operating power equipment. Failure to comply may result in eye injury

1. Place the wall unit on the wall and make marks on the wall.
Note: While marking make sure the mount is placed in a straight line using the surface leveler Drill the wall and insert the concrete anchor in the holes & place the mount on the wall and insert concrete screws. (Refer A1, A2, A3, B1 in the checklist)

2. Place the interface bracket on the TV/ display and insert the washer and screw (Refer the checklist for the suitable screw and washer)

3. For a curved back or obstruction in display or TV kindly follow the above process
